

Wire Forming Technology international (WFTI) magazine produces a **Company Profiles** section once every year, and it appears in the Fall issue.

All full-page and half-page advertisers in the issue mentioned above will receive an equally-sized **Company Profile**, for no extra charge. The relevant specifications are shown below as well as some samples. Please note that all half-page profiles will be produced in horizontal orientations.

Materials to Supply: Advertisers can send text and images files for WFTI to assemble a **Company Profile** for review or they can supply a finished high-resolution PDF of their **Company Profile** for placement on a 40% CMYK yellow background.

Please note that we allow design flexibility for the customer-supplied PDFs, but it is our intention that profiles look like profiles and not advertisements.

Company Profile Text and Image File Guidelines:

Full-Page Word Count: 250-1000 with the average being about 500

Full-Page Images: one to five plus a company logo

Half-Page Word Count: 150-600 with the average being about 250

Half-Page Images: one to four plus a company logo

Please note that we adjust the font size and letting depending on the number of words and images, and that as the number of images goes up, the number of words that can fit properly usually goes down.

Ready-to-Place Company Profile PDFs Sizes:

Full-Page: 7.375" wide x 10.25" tall (187 x 260 mm)

Half-Page: 7" wide x 4.875" tall (178 x 124 mm)

Deadline: All **Company Profiles** need to be produced, reviewed and approved by customers by November 4, 2024. Extensions can be provided when needed.

AIM, Inc.
Automated Industrial Machinery, Inc.
AIM Headquarters
14103 McCormick Drive
Tampa, FL 33626

COMPANY PROFILE:
AIM, Inc. is a leading manufacturer of automated industrial machinery. Our products are designed to improve productivity and reduce costs for our customers. We have a long history of providing high-quality products and excellent customer service.
